Dacula, Georgia

Summary

Development, synthesis, scale up and commercialization of speciality chemicals for personal care with an emphasis toward becoming more biodegradable, renewable, available and green.

Experience

Siltech LLC

President and founder
January 1989 - Present
Lawrenceville, Georgia

Founded Siltech, a specialty organofunctional silicone company in 1989. A start up company having hydrosilylation is a key unit operation, allowing for the preparation of amphiphilic compounds that have improved solubility in oil, water and fluoro compounds. Numerous patents were issued to this start up company.

Alkaril Chemicals Inc

President and Chief Operating Officer
January 1984 - January 1989 (5 years 1 month)
Winder Georgia

Alkaril Chemical Inc. was a U.S. company that was initially a private joint venture which developed, manufactured and marketed surfactants and soil release agents. Alkaril concentrated on HI&I and textile markets. Alkaril Inc, a turn around company with significant losses, was very shortly made profitable and was sold to GAF in 1989, amalgamated with the surfactants group of GAF and sold a short time later to Rhone Poulenc, it is now part of Solvay.

Henkel Corporation

Technical Director
January 1980 - January 1984 (4 years 1 month)
Hoboken N.J.

Henkel Corporation was a major worldwide high tech surfactant company that developed, manufactured and marketed surfactants and other fatty chemicals,

including sulfated products, esters, Guerbet alcohols. Henkel became Cognis and is now part of BASF.

Mona Industries

Laboratory Manager Organic Synthesis

January 1976 - January 1980 (4 years 1 month)

Paterson N.J.

Mona was a specialty chemical company, which developed, manufactured and marketed specialty surfactants. It was part of Uniquema and now is a part of Croda. Major product lines developed and patented included phospholipids and amphoteric surfactants.

Education

Rutgers University - Newark

Master of Science - MS, Chemistry · (1975 - 1979)

Rutgers University - Newark

BS, Chemistry · (1971 - 1975)
